

Greater Manchester Against Evictions!

Seek Advice, Get Support, Get Organised!

The Government promised to do “whatever it takes” to protect people affected by Covid19 – removing the stay on evictions after August 23rd without real legal protection for renters breaks that promise.

Shelter research shows that 450,000 people are therefore now at risk of eviction, that’s an estimated **over 10,000 renters facing eviction in Greater Manchester alone.**

If you are threatened with or have been served with an eviction notice get in touch.

You are not alone, and we can support you in fighting the eviction.

Covid-19 is not just a health crisis: Housing is Health

The Jobs Crisis:

There have been 3.2 million new claims for Universal Credit between 16 March and 16 June, the total number now claiming is 5.3 million up 75% and 9.4 million people have been furloughed. This is 1/3 of working age people.

The Housing Crisis:

93% of renters are of working age. Before CV19 most were already paying more in rent than was affordable (more than 33% of their total income).

Universal Credit and Housing Benefit doesn't pay enough to cover the rent for 70% of rented homes. In Greater Manchester the maximum a single person under 35 can receive is less than £360 per month.

Greater Manchester Against Evictions is a community campaign of advice agencies and housing campaigners to support GM tenants and renters struggling to meet their rent. We demand:

- **No Covid19 Evictions**
- **No removal on stay on evictions without legal protection for renters**
- **A fairer deal for renters under the law - scrap no fault evictions**
- **Tenants don't get intimidated but get organised – seek advice, get support and organise to support each other**

We **will** do “whatever it takes” to prevent renters in Greater Manchester losing their homes as a result of CV19 and show renters at risk of eviction that they are not alone.
